

SOG

MULTI-GAME ECOSYSTEM

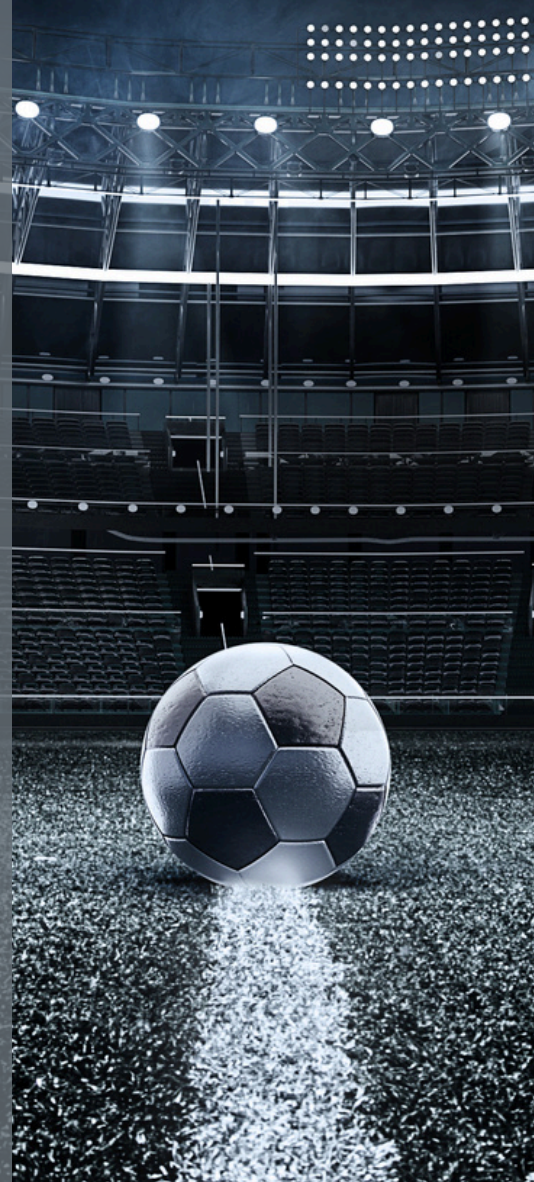

WWW.BUYTOKENS.SBS

THE GAMING

Revolution

The Stamina Coin Game (SCG) will be the first global entertainment ecosystem where the outcome will depend 100% on the player's skill, completely eliminating luck (RNG).

The platform will run directly in browsers (PWA), without heavy downloads, allowing anyone in the world to compete on a technical level playing field. In this future, talent will be the only token that matters.

THERE WILL BE 4 INITIAL GAMES

We will launch a suite with four distinct and initial sports modalities, all interconnected by the same digital economy and wallet. Our four titles will be fully operational as soon as we complete this strategic fundraising phase. The user will move between modalities using the same token, creating a powerful and self-sustaining retention network that will keep the ecosystem alive and growing.

The project will have its architecture validated, security implemented, and an international listing confirmed. We will conduct this strategic crowdfunding campaign to raise the final resources needed for:

- Creating the ecosystem and the first game to validate the economy.
- Optimizing high-performance and secure servers.
- Activating global launch marketing campaigns.
- Ensuring robust initial liquidity on Cex & Dex exchanges.

Buscamos participantes visionários que entrarão na base do projeto antes da explosão de mercado.

CROWDFUNDING

TOKENOMICS

The SCG token has a fixed and immutable supply, designed to avoid inflation. Distribution will prioritize the ecosystem, prize funds, and the community.

Crucial highlight: The founding team and partners will be subject to long-term lock-ins (24-month cliff + 10-year vesting). This will ensure that creators only profit if the project has sustainable success for years, aligning our interests with those of investors.

100 billion units in total:

- 42 billion locked for 3 years
- 45 billion available to the system
- 5 billion for in-game staking
- 6 billion (24-month cliff and 10-year vesting for creators)
- 2 billion for crowdfunding

INITIAL GAMES

SOCCER

BASKETBALL

RACE GAME

SHOT GAME

CONFIRMED LISTING

To guarantee security, immediate liquidity, and the much-desired global visibility, SCG is listed on Tokpie, a recognized international exchange. This step is strategic and mandatory, because without validation from a brokerage of this size, neither CoinMarketCap nor CoinGecko will carry out their official listings.

By consolidating our presence on Tokpie, we will automatically unlock the path to these major global trackers, listings on Coinbase and Binance. This will mean that, at the end of this crowdfunding campaign, the secondary market will be ready to operate instantly, with the necessary credibility to attract a large audience, without bureaucratic delays.

FINANCIAL OPPORTUNITY

This will be the smartest entry window. We've structured progressive Tiers that will aggressively reward early backers:

Tier 1 (Open Now): US\$0.003 per SCG. This will be the foundation price, with limited spots available.

Tier 2: US\$0.005 (Will generate an immediate 66% appreciation for those who entered at Tier 1).

Tier 3: US\$0.010 (Will generate a 100% appreciation over Tier 2).

Tier 4: US\$0.020 (Will generate a 100% appreciation over Tier 3).

Launch: US\$0.03 (Will generate a 10x appreciation over Tier 1).

INITIAL PUMP

With the completion of development, activation of the 4 games, and the start of operations on Tokpie, our conservative projection places the initial market price between US\$0.03 and US\$0.05.

This will represent a potential 10x to 16x return for Tier 1 investors in the very first moments of public trading.

The combination of a ready-to-use product, initial supply scarcity, and a strong "skill game" narrative will create the perfect scenario for an immediate explosive appreciation.

ENJOY EVERYONE! ✨

Tier 1 spots will be strictly limited and will be selling out quickly. There will be no second chance to acquire SCG at this valuation. We invite you to join the select group that will build the future of fair crypto sports.

Secure your position before the price rises to the next Tier.
